

# Declaring indicators within a service

**26 February 2025**

Version 0.1 Draft

# Purpose

- The purpose of this document is to outline the changes in CQRS for services where the data is drawn from a data source and includes indicators which are;
  - *'Subject to Declaration'* and
  - *'Not Subject to Declaration'*
- This functionality applies to the Network Contract DES Service.
- The topics covered are as follows:
  - The definition of *'Subject to Declaration'* and *'Not Subject to Declaration'* indicators and high-level process
  - Viewing indicators in CQRS
  - Changes to the declaration process
  - Different statuses shown
  - Changes to the approval process
  - Declaration Report
  - List of Network Contract DES 24/25 indicator declaration status

# Definitions

# Definitions and high-level process

## ‘Subject to Declaration’ Indicators:

Indicators that are ‘*Subject to Declaration*’ require a member of a PCN to verify that all data submitted against these indicators is correct. Once all data has been submitted for these indicators an achievement will be available to declare. The declaration of the achievement will follow the normal declaration process.

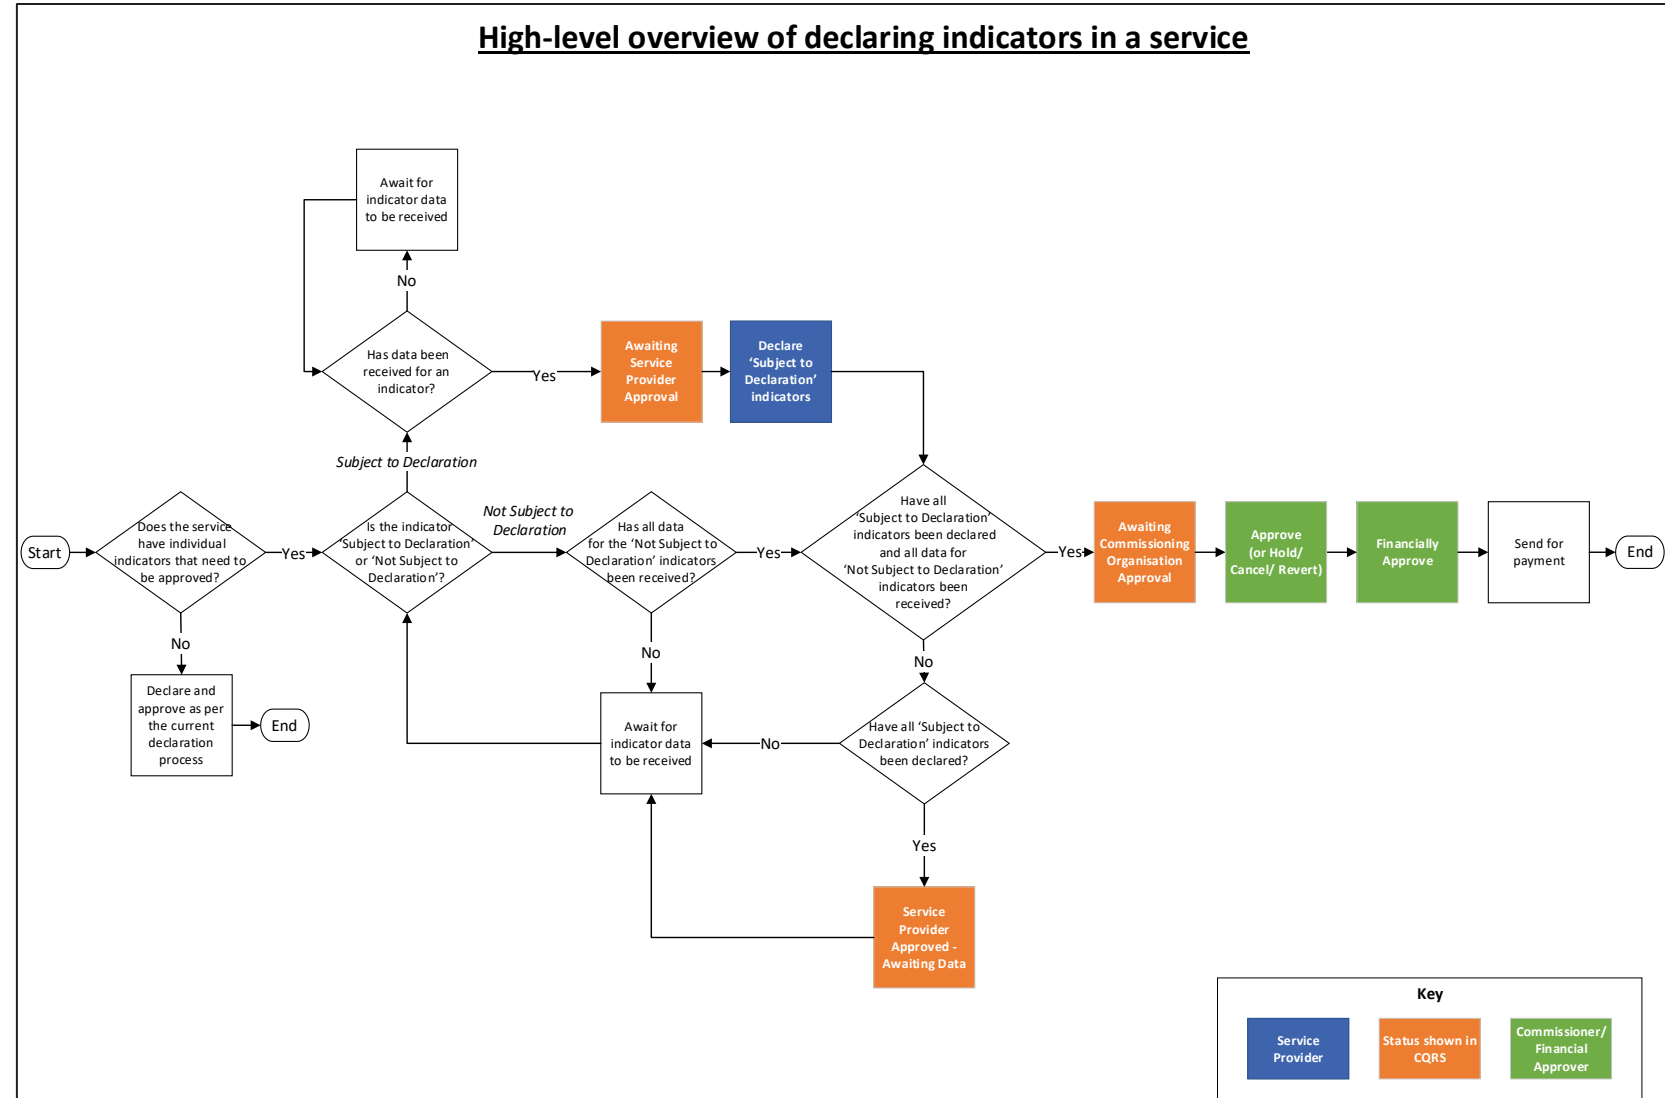

## ‘Not Subject to Declaration’ Indicators:

Indicators that are ‘*Not Subject to Declaration*’ are not required to be declared by a member of the PCN when the indicators are being reviewed.

Once the achievement is declared against the ‘*Subject to Declaration*’ indicators and all data has been received against the ‘*Not Subject to Declaration*’ indicators, the achievement will be updated. The total payment value amount will then be automatically sent for approval by the commissioner.

NB Depending on the order that the data is received, users may see both ‘*Subject to Declaration*’ and ‘*Not Subject to Declaration*’ indicators in the payment declaration.

# Definitions and high-level process

# Viewing Indicators in CQRS

Where can the indicators be viewed in CQRS?

Subject to Declaration Indicators

Any service which includes indicators that are '*Subject to Declaration*' will have a new column to highlight if the indicator is subject to declaration or not. This can be found by clicking the **Data Submission** tab and then the **Record Achievement** tab, and will be displayed as shown below:

Record Achievement | Record Aspiration | Network Achievement

Network Contract DES 2024/25 ⓘ - Achievement Date: 30/04/2024 [← Back to Record Achievement](#)

Last Updated: 05/05/2024 | Practice List Size: N/A  
Baseline Date: 01/04/2024

Indicators

Indicator ID	Description	Subject To Declaration	Date Submitted	Submitted Values	New Values
HI03	Percentage of patients on the QOF Learning Disability register aged 14 or over, who received an annual Learning Disability Health Check and have a completed Health Action Plan in addition to a recording of ethnicity	Yes		<input type="checkbox"/>	EXCLUSION: Patient age is less than 14 years at the quality service end date. (no entry allowed - automated data has been submitted)
				<input type="checkbox"/>	EXCLUSION: Patient does not have a diagnosis of learning disabilities up to and including the achievement date. (no entry allowed - automated data has been submitted)
				<input type="checkbox"/>	Number of patients on the QOF learning disability register aged 14 or over (no entry allowed - automated data has been submitted)

This currently will only be shown for the NCD service.

Where can the indicators be viewed in CQRS?

## Not Subject to Declaration Indicators

This is an example of a 'Not Subject to Declaration' indicator which can be found in the same column by clicking the **Data Submission** tab and then the **Record Achievement** tab, and will be displayed as shown below:

Record Achievement | Record Aspiration | Network Achievement

Network Contract DES 2024/25 - Achievement Date: 30/04/2024 [Back to Record Achievement](#)

Last Updated: 05/05/2024 | Practice List Size: N/A  
Baseline Date: 01/04/2024

Indicators

Indicator ID	Description	Subject To Declaration	Date Submitted	Submitted Values	New Values
ACC09	Number of referrals to the Community Pharmacist Consultation Service per registered patient	No		<input type="checkbox"/>	Number of referrals to the Community Pharmacist Consultation Service to patients in the denominator. (no entry allowed - automated data has been submitted)
				<input type="checkbox"/>	Total number of Registered Patients (no entry allowed - automated data has been submitted)

This currently will only be shown for the NCD service.

# Changes to the Declaration Process (Service Providers)

# Changes to the Declaration Process

Under the previous payment declaration process, the achievement payment was created by the submission of all indicators within the service. Once all data was submitted and aggregated, then a payment was created for a PCN to be declared.

This process has been changed so that once all 'Subject to Declaration' indicator data has been submitted and aggregated, a payment will be created to be declared by the PCN.

When the payment has been declared under the new process it will be held in the '*Service Provider Approved – Awaiting Data*' status until all '*Not Subject to Declaration*' data is received. Once all indicator data within the service has been received the payment will then be automatically updated to the '*Awaiting Commissioning Organisation Approval*' status.

# Service Provider

## Recording Declaration

1. Once all 'Subject to Declaration' indicators have been extracted, a member of the PCN can declare the achievement by clicking on the **Declare** tab and selecting the service, and then clicking on the **'Declare Achievement'** button.

The screenshot shows a web interface for recording a declaration. At the top, there are navigation tabs: 'Achievement Results', 'Declare', 'Post Achievement Modelling', and 'Network Declaration Management'. The 'Declare' tab is active. Below the tabs, there is a 'Payment Declaration' section with a help icon and a 'View Payment Declaration History' button. There are two informational messages: '+ PCN individual organisation amounts will be aggregated into the Network payment.' and '\* This service has earlier achievement date yet to be declared.' To the right of these messages are two buttons: 'Run Achievement Summary Report' and 'Run Annual Activity Summary Report'. Below the messages is a table with the following columns: 'Select', 'Quality Service', 'Payment Type', 'Payment Period', 'Date of Achievement', 'Achievement Amount', 'Status', and 'Notes'. The table contains one row with a checked checkbox in the 'Select' column, a red asterisk next to 'Network Contract DES 2022/23' in the 'Quality Service' column, 'Achievement' in the 'Payment Type' column, '01/12/2022 - 31/12/2022' in the 'Payment Period' column, '31/12/2022' in the 'Date of Achievement' column, '£3,920.00' in the 'Achievement Amount' column, 'Awaiting Service Provider Approval' in the 'Status' column, and expandable 'Underlying Data' and 'Notes' in the 'Notes' column. At the bottom right of the table area, there is a 'View: 50' dropdown and a page indicator '1'. At the bottom of the interface, a yellow bar contains a 'Declare Achievement' button, which is highlighted with a red border.

Select	Quality Service	Payment Type	Payment Period	Date of Achievement	Achievement Amount	Status	Notes
<input checked="" type="checkbox"/>	* Network Contract DES 2022/23	Achievement	01/12/2022 - 31/12/2022	31/12/2022	£3,920.00	Awaiting Service Provider Approval	<a href="#">Underlying Data</a> <a href="#">Notes</a>

2. The new following confirmation message will appear when declared:

The Payment Declaration request has successfully been submitted and is awaiting Commissioning Organisation Approval if all data has been received for the service.

# Service Provider

Missing data for indicators  
'Not Subject to Declaration'

2. In the Payment Declaration History there will be a new status shown as; *'Service Provider Approved – Awaiting Data'*

The payment will remain in this status until all *'Not Subject to Declaration'* data is received. When all data is received the achievement payment will move to Commissioning Approval.

1. When the declaration has been made, a member of the PCN can view their declaration payment history by clicking on the **'View Payment Declaration History'** button:

**Payment Declaration** ? View Payment Declaration History

+ PCN individual organisation amounts will be aggregated into the Network payment.  
\* This service has earlier achievement date yet to be declared.

# Changes to the Approval Process

# Commissioner Approval

Missing data for indicators 'Not Subject to Declaration'

There will only be one option available in this status which is the **'Revert'** button. This can be selected if the payment declared is believed to be incorrect.

**Status:**

- Awaiting Commissioning Organisation Approval
- Awaiting Commissioning Organisation Approval
- Awaiting Financial Approval
- On Hold
- Cancelled
- Awaiting Service Provider Approval
- Awaiting Network Achievement
- Service Provider Approved - Awaiting Data**

If a payment has been declared but data has not been received for indicators that are 'Not Subject to Declaration', within the status dropdown the 'Service Provider Approved – Awaiting Data' can be selected.

**Declaration Management** - Financial Year: 2022/2023

# List of Indicators Subject to Declaration

# Indicator Declaration Status

Name	Description	Subject to Declaration
ACC09	Number of referrals to the Community Pharmacist Consultation Service per registered patient	No
ACC15	Number of declined referrals to the Community Pharmacist Consultation Service per registered patient	No
CAN04	The proportion of patients who have had a lower gastrointestinal urgent suspected cancer referral in the reporting year where at least one urgent suspected cancer referral was accompanied by a faecal immunochemical test result, with the result recorded in the 21 days leading up to the referral.	Yes
CAN03	The proportion of patients who have had a lower gastrointestinal urgent suspected cancer referral in the reporting year where at least one urgent suspected cancer referral was accompanied by a faecal immunochemical test result, with the result recorded in the 21 days leading up to the referral, or in the fourteen days after the referral	No
CVD10	Percentage of patients aged 65 years or over and who received a blood pressure check, who received a pulse check	No
CVD11	Percentage of patients aged 18 years or over with an observation indicating suspected atrial fibrillation recorded during the financial year (including presentations of breathlessness, palpitations, syncope or dizziness or chest discomfort) who received a pulse check	No
CVD13	Percentage of patients aged 25 to 84 years inclusive and with a last recorded CVD risk score (QRISK2 or 3) greater than or equal to 10 percent, who are currently treated with statins	No
CVD14	Percentage of patients aged 65 years or over and with an irregular pulse who either received an electrocardiogram or were referred for an electrocardiogram	No
CVD03	Percentage of patients aged 25 to 84 years inclusive without established cardiovascular disease and with a last recorded CVD risk score (QRISK2 or 3) greater than 20 percent, who are currently treated with statins	No

# Indicator Declaration Status

Name	Description	Subject to Declaration
CVD04	Percentage of patients aged 29 and under with a total cholesterol greater than 7.5mmol/L OR aged 30 and over with a total cholesterol greater than 9.0mmol/L who have been either: (i) diagnosed with secondary hyperlipidaemia; (ii) clinically assessed for familial hypercholesterolaemia; (iii) referred for assessment for familial hypercholesterolaemia; or (iv) genetically diagnosed with familial hypercholesterolaemia	No
CVD07	Percentage of men aged 50 years or over and women aged 55 years or over, without established Cardiovascular Disease and not on lipid lowering therapy, who have a QRISK score recorded on their GP record in the preceding five years and who have a recording of cholesterol levels, blood pressure and smoking status in the 12 months preceding recording of the most recent QRISK score	No
CVD08	Percentage of patients aged 25 to 84 years inclusive without established cardiovascular disease or Diabetes and with a last recorded CVD risk score (QRISK2 or 3) greater than 20 percent, who are currently treated with statins, or where a statin is declined or clinically unsuitable, another lipid-lowering therapy	No
CVD01	Percentage of patients aged 18 years or over, not on the QOF Hypertension Register as of 31 March 2024, ar	No
EHCH01	Number of patients aged 18 years or over and recorded as living in a care home, as a percentage of care home beds aligned to the PCN and eligible to receive the Network Contract DES Enhanced Health in Care Homes service.	No
EHCH02	Percentage of care home residents aged 18 years or over, who had a Personalised Care and Support Plan (PCSP) agreed or reviewed	No
EHCH04	Mean number of patient contacts as part of weekly care home round per care home resident aged 18 years or over	No
EHCH05	Percentage of permanent care home residents aged 18 years or over and recorded as experiencing acute confusion, who received a delirium assessment.	No
EHCH14	Number of permanent care home residents aged 18 years or over who received a falls risk assessment in the reporting period.	No

# Indicator Declaration Status

Name	Description	Subject to Declaration
EHCH24	Percentage of permanent care home residents aged 18 years or over who received a psychosocial assessment	No
EHCH27	Percentage of care home residents aged 18 years or over on the QOF Dementia Register	No
EHCH28	Percentage of permanent care home residents aged 18 years or over with a preferred place of death recorded	No
EHCH29	Mean number of Multidisciplinary Team meetings per care home resident aged 18 years or over	No
ES01	Metered Dose Inhaler (MDI) prescriptions as a percentage of all non-salbutamol inhaler prescriptions issued to patients aged 12 years or over	No
HI03	Percentage of patients on the QOF Learning Disability register aged 14 or over, who received an annual Learning Disability Health Check and have a completed Health Action Plan in addition to a recording of	Yes
PC01	Percentage of registered patients referred to a social prescribing service	No
PC02	Number of Social Prescribing Link Worker consultations per patient currently being seen by a social prescribing service	No
PC03	Number of General Practitioner consultations per patient currently being seen by a social prescribing service	No
PC14	Percentage of registered patients who had a Personalised Care and Support Plan agreed.	No
PC15	Percentage of registered patients who had a Personalised Care and Support Plan reviewed.	No
PC17	Percentage of registered patients whose care was discussed as part of a shared decision-making process.	No
PC20	Number of consultations per patient currently being seen by a social prescribing service	No
PR001	Percentage of registered patients under the care of Proactive Care service	No
PR002	Percentage of registered patients discharged from Proactive Care service	No

# Indicator Declaration Status

Name	Description	Subject to Declaration
RESP01	Percentage of patients on the QOF Asthma Register who received three or more inhaled corticosteroid (ICS, inclusive of ICS/LABA) prescriptions over the previous 12 months	No
RESP02	Percentage of patients on the QOF Asthma Register who received six or more Short Acting Beta-2 Agonist (SABA) inhaler prescriptions over the previous 12 months	No
SMR01A	Percentage of patients at risk of harm due to medication errors who received a Structured Medication Review	No
SMR01B	Percentage of patients living with severe frailty who received a Structured Medication Review	No
SMR01C	Percentage of patients using potentially addictive medicines who received a Structured Medication Review	No
SMR01D	Percentage of permanent care home residents aged 18 years or over who received a Structured Medication Review	No
SMR02A	Percentage of patients aged 18 years or over prescribed both a Non-Steroidal Anti-Inflammatory Drug (NSAID) and an oral anticoagulant in the last 3 months of the previous financial year, who, in the three months to the end of the reporting period, were either (i) no longer prescribed an NSAID or (ii) prescribed a gastro-protective in addition to an NSAID	No
SMR02B	(NSAID) and not an oral anticoagulant in the last 3 months of the previous financial year, who, in the three months to the end of the reporting period, were either (i) no longer prescribed an NSAID or (ii)	No
SMR02C	Percentage of patients aged 18 years or over prescribed both an oral anticoagulant and an anti-platelet in the last 3 months of the previous financial year, who, in the three months to the end of the reporting period, were either (i) no longer prescribed an anti-platelet or (ii) prescribed a gastro-protective in addition to an anti-platelet	No
SMR02D	Percentage of patients aged 18 years or over prescribed aspirin and another anti-platelet in the last 3 months of the previous financial year, who, in the three months to the end of the reporting period, were either (i) no longer prescribed aspirin and/or no longer prescribed an anti-platelet or (ii) prescribed a gastro-protective in addition to both aspirin and another anti-platelet	No

# Indicator Declaration Status

Name	Description	Subject to Declaration
SMR03	Percentage of patients prescribed a direct-acting oral anticoagulant, who received a renal function test and a recording of their weight and Creatinine Clearance Rate, along with a change or confirmation of their medication dose	No
SMR25	Percentage of patients aged 18 years or over with a history of peptic ulceration and prescribed an oral NSAID, who were not concurrently prescribed a gastro-protective	No
SMR26	Percentage of patients aged 18 years or over with a history of peptic ulceration and prescribed an anti-platelet, who were not concurrently prescribed a gastro-protective	No
SMR30	Percentage of patients aged 18 years or over with heart failure who were prescribed an oral NSAID	No
SMR31	Percentage of patients aged 18 years or over with an eGFR less than 45 who were prescribed an oral NSAID	No
SMR32	Percentage of patients aged 18 years or over on the QOF Asthma Register who were prescribed a non-selective beta-blocker	No
SMR33	Percentage of patients aged 75 years or over on a long-term prescription of an angiotensin converting enzyme (ACE) inhibitor or a loop diuretic who have not had their renal function and electrolytes recorded in the previous 15 months.	No
SMR34	Percentage of patients aged 18 years or over prescribed methotrexate for at least 3 months without a full blood count in the previous 3 months.	No
SMR35	Percentage of patients aged 18 years or over prescribed methotrexate for at least 3 months without a liver function test in the previous 3 months.	No
SMR36	Percentage of patients aged 18 years or over prescribed lithium for at least 3 months without a lithium concentration check in the previous 3 months.	No
SMR37	Percentage of patients aged 18 years or over prescribed amiodarone for at least 6 months without a thyroid function test (TSH) in the previous 6 months.	No

# Indicator Declaration Status

Name	Description	Subject to Declaration
HI08	Percentage of patients aged 18 years or over, recorded as being from an ethnic minority, not on the QOF Hypertension Register as of 31 March 2024, and who have (i) a last recorded blood pressure reading in the 4 years prior to 1 April 2024 $\geq$ 140/90mmHg (with the exception of patients whose first blood pressure reading $\geq$ 140/90mmHg in this period is on or after 1 October 2023) for whom there is evidence of clinically appropriate follow-up* to confirm or exclude a diagnosis of hypertension by 31 March 2025 OR (ii) a blood pressure reading $\geq$ 140/90mmHg on or after 1 October 2023, for whom there is evidence of clinically appropriate follow-up* to confirm or exclude a diagnosis of hypertension within 6 months of elevated reading	No
HI09	Percentage of patients aged 45 years or over and recorded as being from an ethnic minority who have a record of blood pressure in the preceding 5 years	No
HI17	Percentage of patients with schizophrenia, bipolar affective disorder and other psychoses and recorded as being from an ethnic minority who received all six elements of the Physical Health Check for people with Severe Mental Illness	No
HI18	Number of registered patients with a Type 1 Opt Out	No
HI21	Number of patients recorded as having a diagnosis of autism	No
HI01	Percentage of patients on the QOF Learning Disability register aged 14 years or over, who received an annual Learning Disability Health Check and a completed Health Action Plan	No
HI02	Percentage of registered patients with a recording of ethnicity	No
HI04	Percentage of registered patients who were given the opportunity to state their ethnicity but chose not to.	No
HI27	Percentage of patients aged 14 years or over and on the QOF Learning Disability Register who received a Learning Disability Annual Health Check	No
VI01	Percentage of patients aged 65 years or over who received a seasonal influenza vaccination between 1 September and 31 March	No
VI02	Percentage of at-risk patients aged 18 to 64 years inclusive who received a seasonal influenza vaccination between 1 September and 31 March	No
VI03	Percentage of patients aged two or three years on 31 August of the relevant financial year who received a seasonal influenza vaccination between 1 September and 31 March	No
